Subject: request for extension of comment periods for TSCA problem formulations and systematic review guidance
Attachments: prob formulation-syst review extension request [EJ, EDF, NRDC, SCHF].pdf

Hello-

Attached please find a request for extension of the comment periods on the ten Problem Formulations for Risk Evaluations To Be Conducted Under Toxic Substances Control Act (TSCA), and on the General Guiding Principles To Apply Systematic Review in TSCA Risk Evaluations, submitted by Earthjustice, Environmental Defense Fund, Natural Resources Defense Council, and Safer Chemicals Healthy Families.

The comment periods for all of these complex documents are set to end on July 26, 2018, a time period this is simply inadequate to providing meaningful review and comment for the reasons set out in the attached letter. We request an extension for a minimum of 46 days. With a 46-day extension, the comment period would close on Monday, September 10, 2018.

Thank you very much for your consideration. We look forward to a prompt response. This request is being submitted to the relevant dockets on regulations.gov.

Kindly,
 Eve Gartner
